AT THE UNIVERSITY PRESS

1914

ARRANGED FOR A COMMITTEE OF THE ROYAL SOCIETY  
UNDER THE SUPERINTENDENCE OF

**HERBERT MCLEOD, LL.D., F.R.S.**

DIRECTOR OF THE CATALOGUE

with the assistance of

**ALICE EVERETT, M.A., R. HARGREAVES, M.A.,  
AND W. MARSHALL WATTS, D.Şc.**

## PREFACE

**T**HIS Part, which completes the Subject Index on Physics, deals with Electricity and Magnetism under the Registration Numbers 4900 to 6850; it contains 23,300 entries, thus making in all 56,644 entries for the subject Physics for the years 1800 to 1900 inclusive.

Miss Alice Everett co-operated in sorting for the Press the slips of the sections on Electrostatics and Magnetism and of a portion of that on the Electric Current; Mr Hargreaves undertook the sections on Electromagnetic Waves, Influence of Electric and Magnetic Fields on Light, and Electric Discharge; the slips for the remainder of the volume were sorted by Dr W. Marshall Watts.
